\*\*True Zero Tail Swing not applicable with pictured additional counter weight option.

## Leading efficiency and operator comfort.

Our ViO80-7 mini excavator is powered by a 67 HP Tier 4 Final YANMAR engine. The largest of our true zero tail swing excavators, the ViO80-7 goes where large conventional tail swing models can't and does so while providing unmatched machine performance. The ViO80-7 comes standard with 2-Pump Load Sensing hydraulic system (2PLS), directing hydraulic flow where it's most needed and allowing for higher speeds and maximum fuel efficiency. Plus, the ViO80-7's upgraded cab includes a more spacious operator area, a 7-inch color display, improved visibility, and more.

### INNOVATIVE FEATURES

#### True Zero Tail Swing

Yanmar introduced the world's first zero tail swing excavator in 1993. True zero tail swing technology means no part of the housing extends beyond the tracks, allowing you to work efficiently anywhere, with less damage to the machine and the worksite.

#### Leading Experience in the Cab

Work in comfort with a quieter and more spacious operator area outfitted with ergonomic controls and a 7-inch color display. Keep an eye on your surroundings with increased visibility from more glass area and standard side and rear cameras.

#### Efficient 2PLS Hydraulics

Take advantage of fuel savings with no sacrifice to power. Yanmar outfits the ViO80-7 with 2PLS hydraulics for a 13% reduction in fuel consumption combined with an extraordinary boost in machine performance, productivity and travel speeds.
