

YANMAR

WHY YCARE?

THE VALUE OF YCARE

► More Predictable Ownership Costs

A planned upfront cost can help reduce the financial impact of unexpected covered repairs.

► Support from Yanmar

YCare is managed by Yanmar in partnership with your authorized Yanmar Compact Equipment dealer.

► Repairs You Can Trust

Covered repairs are completed by trained Yanmar dealer technicians with the training, experience and technical resources to work on your Yanmar equipment.

► Downtime Matters

Your authorized dealer manages the covered repair process and works to return your machine to service as quickly as possible.

► Transferable Protection

Eligible YCare coverage can be transferred to a new owner, adding value when it is time to sell or trade your machine.

► Keep Your Coverage Valid

Your machine must be operated and maintained according to Yanmar's recommendations, including required service intervals and applicable parts and lubricant requirements.

Refer to the YCare terms and conditions for complete coverage, maintenance requirements, limitations, and exclusions.

ADD YCARE WHILE YOUR MACHINE IS ELIGIBLE

You can purchase YCare for eligible machines at any time before the factory warranty period expires.

Your authorized Yanmar Compact Equipment dealer can explain the available options, confirm your machine's eligibility and help you select the coverage term and operating-hour limit that fit your needs.

Your dealer can also help you add travel time and mileage coverage when available.

BUILDING WITH YOU

EXTEND YOUR PROTECTION & PROTECT YOUR INVESTMENT

Your Yanmar compact equipment is built for demanding work. But as operating hours add up, even a dependable machine can experience unexpected failures.

YCare extends eligible warranty coverage beyond the standard warranty period, helping reduce the financial impact of unexpected, covered repairs. With multiple coverage options and terms available, you can select the protection that fits your machine, application and business.

YCARE CAN HELP YOU:

- Manage equipment ownership costs with greater certainty
- Access covered repairs through trained Yanmar dealer technicians
- Reduce the financial impact of unexpected repairs
- Get your machine back to work sooner
- Protect the value of your equipment investment
- Increase resale value with a transferable warranty
- Transfer eligible coverage if you sell your machine

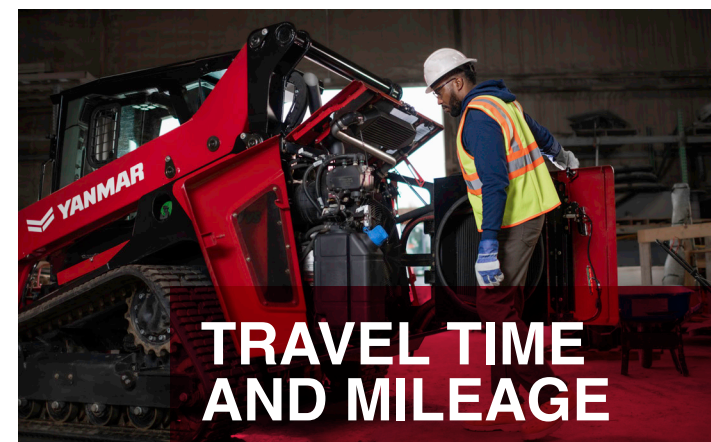

YCare is available for eligible Yanmar compact equipment. Visit your authorized Yanmar dealer for complete eligibility and coverage details.

CHOOSE THE COVERAGE THAT FITS YOUR BUSINESS

YCare offers three coverage options for different equipment needs, applications and budgets. Your Yanmar dealer can help you compare the available protection and select the right option for your operation.

COVERAGE OPTION	WHAT IT PROVIDES	BEST SUITED FOR
COMPREHENSIVE	Provides the broadest available YCare protection, covering eligible machine components against defects in materials or workmanship that result in a covered breakdown or failure during the coverage period.	Customers seeking the highest level of available coverage and greater protection from unexpected covered repair costs.
POWERTRAIN PLUS HYDRAULICS	Covers specified powertrain and hydraulic components, including eligible components within the engine and hydraulic system. Refer to the covered parts schedule for complete coverage details.	Customers who put significant hours on their machines or want protection for potentially costly powertrain and hydraulic repairs.
POWERTRAIN	Covers specified components within the machine's powertrain. Refer to the covered-parts schedule for complete coverage details.	Customers seeking essential protection for major powertrain components exposed to demanding operating conditions.

Available terms and operating-hour limits vary by coverage option. Depending on the product line and applicable Factory Warranty Terms, YCare may extend coverage by up to three years or 3,000 operating hours, for total coverage of up to seven years or 7,000 operating hours. All coverage is subject to the applicable YCare terms, conditions, limitations and exclusions.

WHY STRESS ABOUT TRANSPORTATION?

When a covered repair requires a Yanmar dealer technician to travel to your machine, the service call can create expenses beyond the repair itself.

You can add travel time and mileage coverage to eligible comprehensive YCare plans to help reduce the out-of-pocket cost of bringing trained dealer support to your machine.

COVERAGE FROM THE BEGINNING

When selected, this option can provide travel time and mileage coverage during both the Yanmar standard warranty and the extended YCare coverage period.

Ask your authorized Yanmar dealer about availability, coverage limits and eligibility requirements.
